AMENDMENTS TO THE SPECIFICATION

Please amend the paragraph on page 5, lines 25-33 ([0029] of the published application) as follows:

[0029] The rods slide on angle steels 13 under the control of the control lever 11 and are able to come out projecting from the crosspiece 5 so as to stop on both sides of the guide rail 21, at an equal distance from the latter and simultaneously, on a stop element 23 fixed to the rail 21. This stop element 23 is a simple plate comprising two lateral ~~two lateral~~ folds 25 orientated towards the inside at 90° and placed at an equal distance from the rail opposite the outgoing rods 9.
